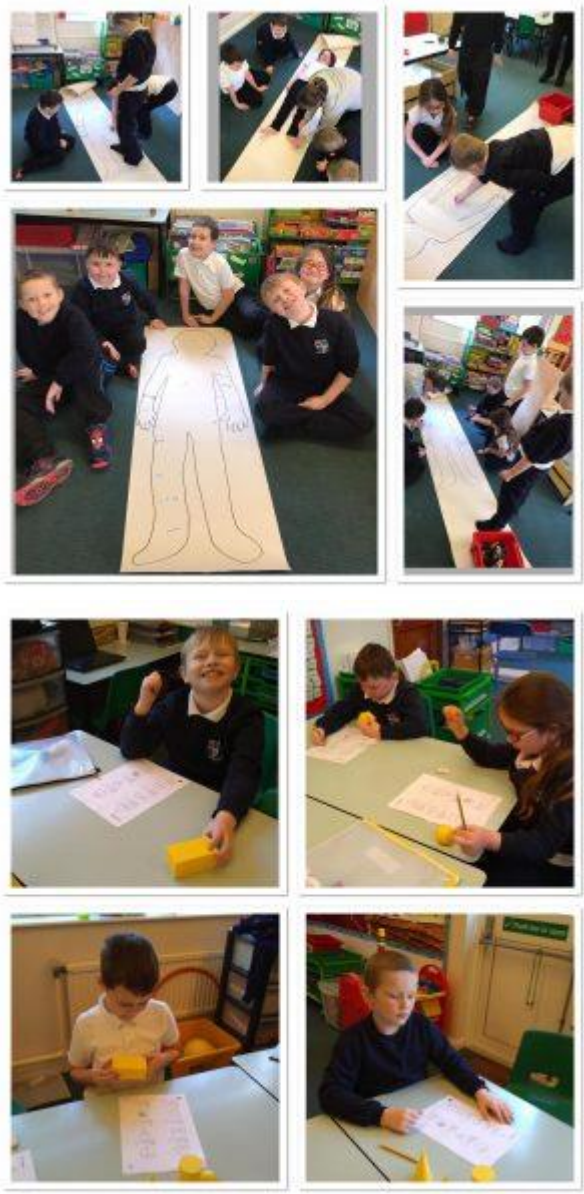
Autumn Photo Gallery!

We are reading *Charlie and the Chocolate Factory* by Roald Dahl and carrying out activities on the story.

We had fun designing confectionery gardens for Mr Willy Wonka.

We went on a 'scrumdiddlyumptious' treasure hunt on the nature trail and found lots of sweets and chocolates.

This week, we have been learning about the human body and the functions of different body parts. In Maths, we have been looking at 3-D shapes and considering the number of sides, faces and vertices of each shapes.



We went on a welly walk to collect leaves. We really loved our leaf challenge - creating symmetrical pictures!
