Monday 23rd March

Hello Class 3! Hope you are all well, and starting to adjust to the strange new situation we now find ourselves in. This has been a real shock to everyone, and we will all have to make HUGE adjustments to our daily lives for now, but life will get back to normal again at some point.

The most important thing for now is that you get in to some sort of routine with continuing your own education at home and take responsibility for your own learning. Following a timetable of some sort from Monday to Friday for the next 2 weeks until the holidays will really help you. Over the next few weeks/months, we will provide you everything you need for your learning!

It is also REALLY important that you understand and are supportive of the challenges and difficulties that many of your parents now face – they may be trying to work from home as well, as well as coping with all sorts of other worries; the better behaved and organised you are, the easier it will be for them – they really don’t need to be chasing around, trying to get you to do things.

We hope you enjoy the activities we have posted for you this week and would love to hear how you are getting on!

Other ‘learning platforms’, and hopefully ways of getting in touch will no doubt develop over the next few weeks, but for now, use the school website.

Try not to worry and keep smiling!

Take care, and we’ll be in touch soon.

Mrs Bridge and Mrs O’Donnell

P.S Today my children drew a rainbow to put in our window! I am told by a neighbour that this is an initiative to cheer people up and remind them that they are not alone! You may want to make your own! Mrs O’Donnell x
