

Bird pictures.

Ideas to use with these pictures:

- Describe the birds. What words / phrases could you use?
- Ask the pupils to choose a card at random and research information about the chosen bird.
- Choose two (or more) of the birds and think of ways they are similar / different.
- Ask your child to create their own art work using the photos as a starting point.
- Choose one of the cards at random and write a story that includes that bird.
- Use the observation sheet to keep a record of any birds that you spot in your garden / school area. Use the results to create graphs and charts? Can you repeat the survey at a later time and compare the results?
