

# Daily Challenge:

**Monday 22<sup>nd</sup> June 2020.**

Teddy bear or toy sorting and ordering.

For this activity you will need a selection of different teddy bears or toys. You will then need to sort your items, you can do this by size, colour, shape or you could create your own way to sort your items.

With the bears or toys sorted as many ways as possible it is time to order them – ask your child for ways in which you could order them.

Here are some ideas:

1. Size – tall to short or short to tall.
2. Colours of the rainbow or colours from dark to light.
3. Old to new or new to old.

I would appreciate seeing your work on Dojo or J2E. Thank you.

I hope that you enjoy completing your challenge.
