

# Daily Challenge:

**Monday 29<sup>th</sup> June 2020.**

Fine Motor Skills Challenge:

**Make a slithering snake. Use the spiral template attached or ask a grown up to draw a spiral for you to cut around. Remember to carefully turn the paper as you cut so that your snake gets longer and longer! You could make a snake sock puppet too - don't forget to add 2 eyes and a tongue. Make your sock puppet talk!**

I hope that you enjoy completing your challenge. Mrs Rees
