

Daily Challenge

We have been thinking about the jungle and the rainforest, the animals that live there and the sounds that you might hear in the jungle. You are all really good with your speaking and listening skills so today we are going to look at a jungle picture. Have a look at the picture and talk about what you can see and what you might hear if you were there in the jungle. This activity will help you develop your descriptive language and using describing words know as adjectives when talking about things in full sentences. For example, The golden snake slithers through the wavy jungle leaves.

Enjoy your challenge.
