Year 2 - Autumn - Block 4

Multiplication & Division

Think of a multiplication to complete:

$$6 + 6 + 6 > \underline{\quad} \times \underline{\quad}$$

The total is 12, what could the addition and multiplication be?

There are four baskets.

There are three dolls in each basket.

How many dolls are there altogether?

Draw an image and write a calculation to represent the problem.

Write a story for the calculation 4×10

Draw an image to illustrate your story.

Each calculation could explain the image.

Explain why.

$$2 \times 5$$

$$5 + 5$$

$$5 \times 2$$

With 12 cubes, how many different arrays can you create?

Once you have created your array complete:

$$\underline{\quad} \times \underline{\quad} = \underline{\quad} \times \underline{\quad}$$

Find different ways to solve six lots of three.

Part of this array is hidden.

The total is less than 16

What could the array be?

Fill in the blanks.

$$3 \times \underline{\quad} = 6$$

$$\underline{\quad} \times 2 = 20$$

$$\underline{\quad} = 8 \times 2$$

Tommy says that $10 \times 2 = 22$

Is he correct?

Explain how you know.

Eva says,

Eva

Every number in
the 2 times-table
is even.

Is she correct? Explain your answer.
