

In Castan our topic for this term is 'The environment', we have looked at Pope Francis' letter, *Laudato Si*, where he asks us to look after our common home.

We have decided to split into teams on a Friday afternoon to try to do just that. We have:

- a gardening team
- a fruit and vegetable team
- an animal welfare team
- a recycling/litter picking team
- an electricity & water saving team

If you have any gardening equipment that you longer need, please could you donate them to our gardening and fruit & vegetable teams - it would be hugely helpful!

A huge thank you to Dennis and his family for sending in some compost and vegetable seeds for our fruit and vegetable team!

Watch this space - thank you for supporting our mission to care for our common home.
