

## Learning Activities: Year 5/6

**Week Commencing: 20<sup>th</sup> April 2020**

Below are a list of activities for you to complete with your child this week. You can contact me by email or through learning conversations on your child's Hwb account. Please do not hesitate to contact me if you are unsure of your child's Hwb log in or password, or if you need support with the activities. ( [HarringtonL11@hwbcymru.net](mailto:HarringtonL11@hwbcymru.net) )

<b>Literacy</b>	
<b>1</b>	Spelling – Make a list of all the homophones you can think of (words that sound the same but have different spellings) You can write the words in interesting ways – different coloured pens, paints, use of chalk outside, in sand etc. <b>Examples – pair, pear,</b>
<b>2</b>	Writing – Log into J2E and use one of the writing tools to complete a diary entry about how you are feeling, and what you are doing during lockdown. Use the comment tool to let me know when you are ready for me to read it 😊
<b>3</b>	Reading – See reading activity sheet on J2E, which gives children different book based activities they can complete.

<b>Numeracy</b>	
<b>1</b>	Multiplication Facts – Complete and save a session using J2 Blast. Use the speech bubble above the task to let me know when you have completed the activity.
<b>2</b>	Division Facts– Follow this link and click on 'Division Facts' choosing mixed facts up to either 10 or 12. I wonder if anyone can beat my high score- 29! Good luck 😊 <a href="https://www.topmarks.co.uk/maths-games/hit-the-button">https://www.topmarks.co.uk/maths-games/hit-the-button</a>
<b>3</b>	Measurement Activities- Use a ruler to measure items around the house or garden. As a challenge, children can convert the measurements from cm to mm or m, or put the measurements in order. If the weather is nice, children can also measure and calculate the perimeter (distance around the edges) of a garden or outdoor space. They can measure length with steps, and use this to find the perimeter by adding the length of each side together.

<b>Topic and PE</b>	
<b>1</b>	Science – Create a list of habitats where water is found, and find out what type of animals might live there. If you live within walking distance of a river, and it is possible for the family to visit the river to take their daily exercise, you could all go for a walk down to the river, and look at what habitats you can see. Only do this if children can be supervised safely. If not possible complete 'Labelling a River' Activity on j2E
<b>2</b>	Complete at least one Joe Wicks workout activity this week! On Friday's they are fancy dress so if you are taking part we would love to see your photos which you can tweet us or upload to HWB 😊
