

My Concern

What is MyConcern?

MyConcern® is a simple to use, safe and secure software for recording and managing all safeguarding concerns. The system enables all staff to record any safeguarding concern, safe in the knowledge that a proper record has been made and that their safeguarding lead has been automatically notified. It also equips the designated safeguarding lead to assess each concern and manage any ongoing action that needs to be taken.

MyConcern® was designed with the support of teaching professionals and meets (and often exceeds) all DfE statutory guidance and school inspection standards. It is constantly updated to reflect national good practice in schools and 'lessons learned', including Serious Case Reviews.
