Mathematics Development

There are lots of animals in the story. I wonder if you can choose some animals from the story and work out how many legs all together. For example one fox would have 4 legs and two foxes would have 8 legs. Can you draw the animals and show me how good you are at counting. If you chose the owls, you can show me how good you are at counting in 2s! you can take a video and upload it to flipgrid or HWB!

Take a trip to the local park to find some woodland objects e.g. autumn leaves, acorns, pinecones, sticks etc. When you get home sort the items and have a go at counting how many you have of each object. Remember to look at the colours and shapes. Can you record this in a tally chart? Take a photo and upload it.

Science and Technology

Can you choose one of the animals from the story and make a house for it. Don't forget that they live in a woodland habitat and it would need to be nice and warm and cosy!

Health and Well-Being

How do you think Percy felt when he saw the tree had fallen down? Can you think of some words to describe how he felt?

Can you take some photographs of you showing different expressions? Can you write down what makes you happy and sad?

Expressive Arts

Use Paint in JIT to create a drawing of your favourite character from the story. Don't forget to save your work.

Can you make a hedgehog out of sticks and leaves? Take a photo of what you have done!
