

### Nursery Home Learning

It has been lovely to see photographs and videos of your child's learning on our Facebook Page. Remember to keep sharing!

My email address is [heywardh1@hwbcymru.net](mailto:heywardh1@hwbcymru.net) if you have any queries or questions please get in contact.

Please remember that they would only be in school for the morning or afternoon session and during this time they would have lots of opportunity to play. Children learn through play so please keep having fun!

**Year: Nursery Home Learning - Week beg: 18.01.21**

## Language, Literacy and Communication

Our focus this week for Nursery is going to be the Nursery Rhyme 'Jack and Jill.' There is a short video clip showing the importance of singing rhymes with children. [www.bbc.co.uk/tiny-happy-people/jack-and-jill/zmhfy9q](http://www.bbc.co.uk/tiny-happy-people/jack-and-jill/zmhfy9q)

Monday morning- Share with the children the PowerPoint 'Jack and Jill'. Talk about the pictures and what is happening. Begin to learn the words.

Tuesday morning - Share PowerPoint again and keep practising the words throughout the day.

Wednesday morning - Draw a picture of Jack following instructions posted on Facebook on Wednesday AM.

Thursday morning - Practise the nursery rhyme. Look at the pictures. Say the first line and the children have to find the picture to match this. Then move onto the next line.

Friday morning - Draw a picture linked to the Nursery Rhyme. Ask your child to talk about it and write what they say.

## Daily Dos

We would like you to encourage your child to become more independent: -

Begin to dress themselves e.g., putting on their own coats, doing up buttons and zips.

Share a story with your child. It would be nice if you can read them a story from a book. You can repeat the story daily and encourage your child to join in. After repeated reading ask them if they would like to tell you the story.

## Mathematics/Numeracy

We are going to focus on number rhymes and number formation

Monday morning - Recap number song for numbers 1, 2 and 3. Practise formation remind your child to say the number rhyme whilst writing the number.

Tuesday morning - Introduce song for number 4. Practise number formation remember to encourage your child to say the number rhyme.

Wednesday morning - Practise and recap the song for number 4. Practise number formation for numbers 1, 2, 3 and 4

Thursday morning - Introduce song for number 5. Practise number formation remember to encourage your child to say the number formation rhyme.

Friday morning - Use number cards 1-5. Hold up the numbers in a random order and ask your child. What is this number? After you have checked which numbers they can read and recognise then ask them to write these. Encourage them to say the number rhyme. You will now know which numbers you still need to work on daily. Please make these a focus.

## Health and Wellbeing

Dough Disco: If You're Happy and you know it  
[www.youtube.com/watch?v=DrBsnHwxzgc](http://www.youtube.com/watch?v=DrBsnHwxzgc)

Cosmic Kids Yoga: [www.cosmickids.com](http://www.cosmickids.com)

Busy Feet: If you google 'Busy feet at home Session 1 Colour Movers'. This has the songs that your child is familiar with.

Daily Walk: Wrap up warm and have fun!

## Topic

- [4 Water Activities Toddlers - YouTube](#) Although this says for toddlers these are 4 lovely activities that I am sure your children will love. Just for fun! Please take photographs and share these on our Facebook Page.
- Watch the Peppa Pig episode linked to 'Water' [Peppa Pig Official Channel | Peppa Pig Looks For Water - YouTube](#)
- Watch the episodes and talk to the children about the different places that they can find water.
- Ask them to draw a picture of Peppa Pig and talk about it. Can you tell me about your picture? Write what your child says.
