

Maths and Numeracy Activities

1. Number 1

This week we are looking at number 1. Help your child to recognise number 1 by pointing it out whenever you see it. Ask your child if they can see a number 1 anywhere. Ask them to find you 1 leaf, 1 stone, 1 flower in the garden. Ask them to find you 1 pencil, 1 pen, 1 teddy in the house.

Have a look through this Powerpoint together for more number 1 ideas!

Click on the picture to open the PowerPoint on the Twinkl website. You might need to hold down CTRL when you click on it. If you can't open it, it is also on our school website under this Maths document you are looking at.

2. Number songs

Singing number songs together can help your child learn to count and to recognise numbers. In Nursery, we are working on rote counting up to 10 (reciting numbers 1-10) and counting out up to 5 objects from a set. We are learning to recognise number 1-5 and to put them in the correct order.

Here are some of our favourite number songs:

[1, 2, 3, 4, 5 once I caught a fish alive](#)

[Zero, zero, superhero](#)

[5 currant buns](#)

[5 little speckled frogs](#)

[I can count to 10](#)

[5 little monkeys](#)

3. Counting back from 10

If your child is confident rote counting (reciting numbers) up to 10, try practising counting down from 10 to 1. You could start with reciting numbers 5 down to 1 and build up to reciting from 10 down to 1. This video might help! [Counting down from 10-1](#)
