

WALT: estimate sensibly and measure accurately in cm.

Guess how tall / long objects are in cm.

Then measure using a ruler / measuring tape.

Choose objects -	My guess in cm.	Measurement in cm.

Questions.

1. Did you guess any measurements correctly?
2. Did you guess too many cm for any objects?
3. Did you guess too little cm for any objects?
4. Which object was the longest / tallest?
5. Which object was the smallest / shortest?
6. Did any objects measure to be the same?
7. How many cm altogether are objects 2,4 and 6?
8. How many cm altogether are objects 1,3,5,and 7?
9. Assess your work by using colours faces----->

☹️ Too difficult
😊 Okay!
😄 Too easy!

I estimated sensibly 😊

I measure accurately, using ruler correctly 😊
