

WALT: estimate sensibly and measure accurately in cm.

Guess how tall / long objects are in cm.

Then measure using a ruler / measuring tape.

Chose 4 objects-	My guess in cm.	Measurement in cm.
1		
2		
3		
4		

Questions.

1. Did you guess the length of any objects correctly?
2. Which object was the longest / tallest?
3. Which object was the smallest / shortest?
4. Did any objects measure to be the same?
5. How many cm altogether are objects 1 and 3?
6. How many cm altogether are objects 2 and 4?
7. Assess your work by using the coloured faces ----->

☹️ Too difficult
😊 Okay!
😄 Too easy!

I estimated sensibly 😊

I measure accurately, using a ruler correctly 😊
