Webs everywhere!

Don't forget to do your shooting webs exercises!
Spider lunges here we come. How many webs can you shoot in 1 minute? Grown-ups help us time ourselves. Can you get to count to 20? Push your spider-muscles!

2.2. Chalk Spider Web Fun!

Chalk or tape a large spider's web onto the ground outside and set your child different physical challenges to do in the web.

You will need: chalk or masking tape, a toy /pretend spider or small ball/hacky sack

Make up your own challenges, or use these ideas, adapted from “Still Playing School Pre-K”:

- **Use the web as a balance beam.** Walk on the lines with a pretend spider on their heads, their feet must stay on the line and they mustn't drop the spider!
- **Walk the lines of the web in different ways** – hop along, jump with 2 feet together, walk on tip-toes, make giant steps etc.
- **Throw the pretend spider into a space on the web to play spider hopscotch.** Pretend the children are insects as you ask them to navigate from one side of the web to the other without stepping on the sticky web lines or the space of the web with the spider in it!
- **Write numbers, letters, shapes inside each space of the web.** Invite children to identify the information for you as they step on each space. You can also toss the pretend spider into the web and ask the child to jump into the same space and name the letter, number, shape that it landed on.
- **Draw out more spider webs and time your child running along all the lines and jumping between the different webs.**
