

Tuesday 2nd June

Please complete work / drawings / art work / printed off images in the purple book provided.

Please write the date and the WALT before you begin the work.

• **Activity 1- English.**

WALT: hold a debate.

Choose whether you agree or disagree with plastic (recap previous work if needed).

Discuss this topic with a member of your family explaining why you think plastic is good / bad.

Film your debate and think about the following-

- Did I speak clearly? Loudly?
- Did I talk in sentences?
- Did the sentences make sense?
- Did I listen to the other person?
- Did the other person listen to me?
- Does the other person understand my views?
- Do I understand the other person's views?

If you like, copy/print the sentences and use our self-assessment smiley faces to mark your work on debates-

☹ - I could do this better

😊 I did this with some help

😄 I did this confidently.

• **Activity 2- Topic - CONTINUED FACT FILE ACTIVITIES.**

Create a food chain for your animal.

You can present it in any way you like - in your book, making models, drawing/cutting/sticking the animals and plants of your food chain onto paper or there are some examples on the next page 😊

Answer the questions about your food chain.

- Where does the producer get their food from?
- What is the producer in your food chain?
- How many consumers are there?
- What is a predator?
- What is the predator of your food chain?
- Is your fact file animal the producer? The consumer? or the predator of your food chain?
