

# Coin Detective

Can you help the coin detective find all the Australian coins?

Put a cross through the coins that are not Australian coins.

Then, colour the Australian coins in the following colours:

|   |          |   |          |   |          |
|---|----------|---|----------|---|----------|
|  | = yellow |  | = red    |  | = blue   |
|  | = green  |  | = purple |  | = orange |
