NEWSLETTER: DATE 4 NOVEMBER 2016

Annwyl Pawb

What a spooky evening! The PTA did us proud with a very frightening Halloween Disco last night. Thanks to everyone for all their hard work with catering, tattoos, etc and especially to Neil Bovingdon for once again providing us with the best music to dance to. The children had a great time and the PTA raised the sum of £270. Well done all!

I regret that Powys have now notified us that school dinners must be paid for in advance, and by the end of the week they are taken at the latest. Unfortunately, if payment is outstanding for 5 days, the child will be put "on stop", meaning that parents will have to provide a packed lunch or make alternative arrangements. Apologies for any inconvenience this causes, which is of course beyond the schools control.

The children all received a letter yesterday from our School Super Ambassadors, Nia and Finn, asking them to take part in the Children's

Commissioner for Wales' <u>Mission</u> for this term. This relates to behaviour and bullying and it would be great if we could send lots of responses to Cardiff at the end of the month. Please encourage your child to take part in the activities about "Sam's Story".

Despite the very cold weather, the children did so well at the Cross Country yesterday. Lots of children have really taken to this sport this year and just below is a copy of an entry form for the Primary Cross Country Challenge on 26/11/16 for any child that would like to take part. Thanks to all the frozen parents that turned out to support yesterday – you will be glad to know the next event is probably in February!!

SOM HINTER

MATHS OF THE MONTH (NOVEMBER): TEMPERATURE

As we are now heading so quickly into Winter, this month's maths is about temperature. Practicing some of this with your child at home over the month will help them gain a good understanding of temperature is a natural, purposeful way. Thank you for your support.

YN	Use direct comparisons when describing temperature, e.g. hot/cold
YR	Use direct comparisons when describing temperature, e.g. hot/cold
Y1	Use descriptive words for a range of temperatures, e.g. cooler/warmer
Y2	Compare daily temperatures using a thermometer (°C)
Y3 & Y4	Take temperature readings using thermometers and interpret readings above and below 0°C
Y5 & Y6	Calculate temperature differences, including those involving temperature rise and fall across 0°C
Challenge	Convert temperatures between appropriate temperature scales (eg Celsius to Fahrenheit etc)
