

ACTIVITY TIME

Make yourself a set of cards to represent the articles of the CRC that make up some games to play with the people in your home to help everyone learn about rights.

If you were a teacher of very young children, how would you help them to understand about their rights. What activities would you create.

Lots of organisations, as well as Unicef, help to promote children's rights. Look on You Tube with an adult to see if you can find any videos about children's rights. Watch them and make a note of any facts that you did not know before. Share what you have learnt with your teacher or your family.
