The National Pupil Database (NPD)

The development of a National Pupil Database for Wales was a central objective of the Welsh Assembly's Information Management Strategy (IMS) for schools, Local Education Authorities, and Post 16 providers. The National Pupil Database is owned and managed by the Welsh Government and contains information about pupils in schools in Wales. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Welsh Government. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the Welsh Government as part of statutory data collections such as the Pupil Level Annual School Census (PLASC) linked to the pupil's attainment data relating to both statutory key stage assessments and external examinations such as GCSEs. Some of this information is then stored in the NPD. The law that allows this is The Education (Information About Individual Pupils) (Wales) Regulations 2013.

To find out more about the NPD, go to The Education (Information About Individual Pupils) (Wales) Regulations 2013: <https://www.legislation.gov.uk/wsi/2013/3137/contents/made>

The Welsh Government may share information about our pupils from the NPD with third parties who promote the education or well-being of children in Wales by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The NPD is a secure website, with access restricted to authorised users only. Access to the database is strictly controlled via allocated User IDs and passwords. Individuals wishing to apply for access to the NPD will be required to complete an application form to determine their level of permissions. Welsh Government will only provide data for a specific purpose and for a limited time period, after which the organisation must confirm that it has been destroyed. Any analysis produced must follow Welsh Government disclosure rules to ensure that individual pupils cannot be identified.

Further information can be found by accessing the IMS web pages at: www.wales.gov.uk/ims

For research purposes wider than education, Welsh Government will use techniques that ensure the data are anonymised before any research takes place. Sharing of anonymised data is outside of the GDPR.

Further information can be found on the website at: www.gov.wales/School Data
