Dear Parents and Carers,

We would like to take this opportunity to update you with the situation regarding the Coronavirus (COVID-19).

- The school continues to follow all advice issued by Public Health, Welsh Government and Local Authority. The school has **not** been advised to close at this time.
- The school has increased the cleaning regime in the school with a greater focus on touch points. We are grateful to our excellent cleaning team in their incredible support at this time. Hand washing facilities are well stocked and the children receive constant messages about how to properly wash hands in order to maintain good hygiene.
- We are monitoring all trips and making decisions on a case by case basis in line with government advice. We will keep parents/ carers informed of any plans to cancel trips or other school activities.
- We are now preparing to provide work for your children should the school need to close for any length of time. Most work will be added to our online learning platform Hwb. Children will be provided with these logons if they do not already have them. We will also endeavour to send some work home that does not need to be completed online.

Whilst this continues to be a difficult and fluid time for us all, I hope this correspondence gives you the assurance that the school is responding appropriately during this period. Until we receive other advice, we will continue to operate a full and normal day (including After School and Extra Curricular clubs), welcoming your children to school every day.

Finally for further updates please refer to our website or Twitter feed or
