

Climate Definitions

Tropical

Around the Equator we have **tropical** climates which are hot and humid, this is where you'll find the world's rainforests.

Temperate

Then there are **temperate** climates. That's what we have in the UK, where summers are mild and winters aren't too cold.

Cold Climate

A climate characterized by COLD TEMPERATURE for a majority of the time during the year.

Warm Climate

Somewhat **hotter** than temperate; having or producing a comfortable and agreeable degree of heat; moderately hot
