- www.twinkl.co.uk offer code: UKTWINKLHELPS
- www.speechandlanguage.info/parents New Parent Portal accessible via Speech Link (only available via Google chrome!)

Language, Literacy and Communication

- Using paper plates/bowls/anything you have, write the letter sounds s,a,t,p,i,n,c,k,e,h,r,m, on the plates. Then write 10 of each letter sounds on squares of paper. Mix the letter sounds up on a table top and sort the squared paper letter sounds onto the correct plate matching them to the right letter sound plate. Learn three new letter sounds with Jolly Phonics - g, o, u.

Mathematics

- Have a go at writing the numbers 1-5/1-10. Start by writing the numbers using your index/pointing finger in different multi-sensory materials. A tray full of rice, flour, sugar, shaving foam, jelly, jam. Then holding a pencil correctly, write the numbers on paper. Remember to always start at the top of the number!

Science and Technology

- Find out about snails, what they eat, where they live, how they can sometimes be a pest in the garden? Have a go at chalking a spiral snail shell on your garden path or house wall. If you have no chalk use a clean paint brush and a bowl of water to draw your snail shells outside on your garden path/walls.

Humanities

- Find out about where you live. What number house do you live in, what is the name of your street, who lives in your house with you? Draw a picture of your house and your family, post it to your grandparents house!!

Expressive Arts

- Using a white wax candle make a snail trail on paper, paint over the paper with different coloured paints, watch the snail trail appear!!

Health and Wellbeing

- With the help of a grown up make bread dough to eat or salt dough to decorate. Look online for a simple recipe. Roll the dough into a long sausage and shape into a spiral shape, just like a snail shell, cook and either eat or decorate with paint. Enjoy!!
