JUNE 2021

## FROM THE HEADTEACHER'S DESK

This month we have mixed emotions. It is with sadness we say 'goodbye' to our year 11 and year 13 students and wish them well with their future chosen paths. It is with excitement we begin to prepare for visits of our year 6 pupils, the next generation of Gowertonians. This year will be different as we cannot have our usual four

## YEAR 7 SCI-TECH PROJECT

Our year 7 pupils have been busy in a project where they prepare their own innovative solutions to the climate and ecological crisis.

In Sci-Tech, lessons that combine science, maths, design and technology, we have been looking at how sustainable design can protect the natural world while improving our human communities.

From combining deforestation and protecting animal habitat to providing human beings with more healthy ways of living, sustainable design can bring benefits to us all.

Our pupils were challenged to design their own state of the art eco village. They then built a model of the village.

Well done to Chloe and Honey for their winning design.

## LIONS VIDEO LINK

Gowerton School was very lucky to have a video link message from Liam Williams, Scarlets, Wales and British Lions.

Liam, an ex pupil, kindly did a video link to a year 7 pupil Dylan to congratulate him on winning a signed Scarlets shirt. As can be seen in the photo, Dylan was thrilled and shocked to have this unique opportunity to chat to Liam.

As a school we are so proud of both our Gowertonians, Liam Williams and Dan Biggar, for being such excellent role models to our pupils. We wish the Lions all the very best on their tour and also thank Liam for giving up time during training to present this shirt to Dylan. It certainly "made Dylan's day".

## YEAR 7 WINNER!

In the photo we see Morgan with his prize from Welsh Hockey. Being presented with a £100 voucher from Amazon was very exciting.

Morgan, Year 7, completed the Participant Survey of the Putting School Hockey First Project and came first in the Prize Draw. Well done Morgan!

## SCHOLAR PROGRAMME SUCCESS

This year, despite the challenges faced, pupils from Year 8 and 9 successfully completed and graduated from the 'Scholars Programme' run by 'The Brilliant Club'. They participated in online seminars and completed a University style essay with many achieving the top grade of a First! The fact they did this while completing online learning from home is incredible and we are very proud of them.
