

'Houses and Homes'

Go for a walk and spot as many types of homes as possible – can you take some photographs?

Go outside and draw or paint an observational picture of your home from the outside.

Make a waterproof house for your favourite toy.

Please remember to share your pictures of your learning with us!

Research what homes are like in different countries around the world. How could you record your findings?

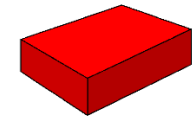

Investigate which materials in your house are waterproof by placing them in a bowl of water.

If your child is learning from home during the school closures, then here are some suggested topic activities that they may wish to complete at home alongside their online maths and literacy learning.

Go for a walk and spot as many 3D shapes as possible – can you take some photographs?

PIC Topic Home Learning Challenges

Create a model of a home using junk modelling or other materials – what kind of home will you choose to make?

Design your dream home – what would you include?

Find out about the habitat of an animal of your choice. How could you record your findings?

Create a house or home using Lego, playdough or other toys.

Please let us know if you need any resources or equipment and we can help with this.

Help to make one of your meals- it could be breakfast, lunch or dinner.

Bake a tasty treat.

Research what houses were like in the past. How could you record your findings?
