Aled's team:

There are three children.

They swim one length at a time in this order:

Aled,

then Aled again,

then Siân,

then Lucy.

The team swims a total of 40 lengths.

Each length is 25 metres.

Work out how many metres Aled swims in total.

metres

TOTAL

2 Divide the red square ...

into 2 equal parts

into 3 equal parts

into 4 equal parts

3 The **smallest** doll weighs 10 grams.

10 grams

Each doll weighs **half** as much as the next doll.

Altogether, what do the five dolls weigh?

grams

- 4 Complete each number sentence, across and down.

Write a whole number in each square.

Write +, -, × or ÷ in the circle.

	×		=	
12	÷		=	

- 5 Together 2 balls weigh 0.8kg.

Altogether, what do 3 of these balls weigh?

kg

- 6 12 children are in three teams for a race.

Red team (**R**)

Blue team (**B**)

Yellow team (**Y**)

The 1st child to finish gets 1 point, the 2nd gets 2 points, the 3rd gets 3 points, and so on.

At the end of the race, each team has exactly the **same** number of points.
