1. Introduction

In toilet training development there is great variation from child to child. Children usually achieve continence between their second and fourth birthday. Most children, including those with a severe learning disability, can be trained to use the toilet.

With an increase in recent years in the number of three year olds starting in school that are not toilet trained, the greater the need for clear procedures for providing intimate care and defined roles. In some case there may be a lack of training or a developmental delay, however other children may have an underlying medical need. In either case, it is not permissible to refuse a child admission to school on the basis that the child is not toilet trained.

Following the Healthcare Needs Policy development in 2017, a multi-agency working group was established in the autumn to consider how intimate care needs are managed in the school setting. Partners included; Betsi Cadwalader University Health Board, School
Improvement Service, Inclusion Services and Health & Safety at Flintshire County Council, alongside Ysgol Cae’r Nant, Ysgol Ty Ffynnon and Golftyn Primary School.

The group reviewed existing county guidance and this was updated to reflect current best practice and national guidance. This Intimate Care Guidance has been developed to safeguard learners and staff in Flintshire schools.

**Definition:** Intimate care can be defined as any care which involves washing or carrying out a procedure to intimate personal areas which most people usually carry out themselves but some learners are unable to do because of their young age, physical difficulties or other special needs.

Intimate care tasks are associated with bodily functions, body products and personal hygiene that demand direct or indirect contact with, or exposure of the genitals. Examples can include support with dressing and undressing (underwear), changing of incontinence pads and nappies, helping an individual use the toilet, or washing intimate parts of the body. Intimate care can be undertaken on a regular basis or during a one-off incident. Support may be required with catheterisation and colostomy bags. Guidance on these medical interventions should be sought from relevant Health professionals and included in the child’s Individual Healthcare Plan.

2. **Legal Context**

The Welsh Government issued ‘Supporting Learners with Healthcare Needs’ Guidance for schools in March 2017. Many learners have a short-term healthcare need at some point, which may affect their participation in educational activities. Other learners may have significant or long-term healthcare needs affecting their cognitive or physical abilities, their behaviour or emotional state. The guidance emphasises the need for a collaborative approach from education and health professionals, placing the learner at the centre of decision making. The guidance states that:

‘The education setting should have an intimate care policy. It should be followed, unless alternative arrangements have been agreed, and recorded in the learner’s Individual Healthcare Plan’.

The Governing Body also recognises its duties and responsibilities in relation to the Equalities Act (2010) and the need to treat all learners, regardless of their age, gender, disability, religion, ethnicity or sexual orientation with respect and dignity when intimate care is given.
In order to meet their responsibilities under the Equality Act 2010, the school must make ‘reasonable adjustments' to accommodate learners with disabilities, which may include the provision of personal and intimate care. The learner’s welfare is of paramount importance and their experience of intimate and personal care should be a positive one.

3. **Related Policies**

This Intimate Care Policy should be read in conjunction with the following school policies:

- Safeguarding & Child Protection Policy
- Health and Safety Policy – including Manual Handling
- Additional Learning Needs Policy
- Healthcare Needs Policy
- Staff Code of Conduct

4. **Key Principles**

The following are the fundamental principles upon which this Guidance is based:

- every child has the right to be safe
- every child has the right to personal privacy
- every child has the right to be valued as an individual
- every child has the right to be treated with dignity and respect
- all children have the right to be involved and consulted in their own intimate care to the best of their abilities
- all children have the right to express their views on their own intimate care and to have such views taken into account; and
- every child has the right to have levels of intimate care that are appropriate and consistent.

5. **Roles and Responsibilities**

5.1. **Head teacher**

Staff at Wepre School that provide intimate care, are in a position of great trust and responsibility and the importance of their role in promoting personal development of learners is invaluable. The head teacher will ensure that any adults assisting with intimate care will be employees the school and the learner will be supported to achieve the highest level of autonomy that is possible given their age and abilities.

Where intimate care is not detailed in a Job Description, then only staff members who have indicated a willingness to do so, should be required to provide intimate care. The head teacher will ensure that all staff will be appropriately trained and supported. Only those members of staff who are familiar with the Intimate Care Policy and other pastoral care policies of Wepre School are to be involved in the intimate care of learners.
5.2 Staff

It is the responsibility of all staff caring for a learner to ensure that they are aware of the learner’s method and level of communication. Depending on their maturity and levels of stress, children may communicate using different methods - words, signs, symbols, body movements, eye pointing, etc. Staff attitude to a learner’s intimate care is also important. Keeping in mind the learner’s age, routine care and can be both efficient and relaxed. To ensure effective communication, staff will:

- make eye contact at the child’s level
- use simple language and repeat if necessary
- wait for response
- continue to explain to the child what is happening even if there is no response;
- treat the child as an individual with dignity and respect.

Staff will encourage each learner to do as much for the learner as they are able to. This may mean, for example, giving the child the responsibility for washing themselves. Individual Toileting Plans will be established for identified learners as appropriate – refer to Appendix 5.

Where a situation renders a learner fully dependent; the member of staff should talk about what is going to be done and provide choices where possible. The member of staff should ensure they are aware of any preferences for the intimate care from the learner and/or parent.

Young children and children with special educational needs (SEN)/additional learning needs (ALN) can be especially vulnerable. Staff involved with their intimate care need to be particularly sensitive to their individual needs.

Some procedures must only be carried out by members of staff who have been formally trained and assessed. There should be more than one member of staff assigned within a plan to allow for any illness absence or leave.

Only in the event of an emergency would staff undertake any aspect of intimate care that has not been agreed by parents and school. Parents would then be contacted immediately.

5.3 Parents & Carers

Parents / Carers have a responsibility to advise the school of any known intimate care needs relating to their child. WePre School will ensure that there is an effective transition system in place between schools / settings, and that parents are given the opportunity to discuss any intimate care needs during planned admission’s meeting.

Parents / carer will work in partnership with school staff and other professionals to share information and provide continuity of care. Parents / Carers are required to provide changes of clothes / wipes / nappies on a daily basis.
6. Safeguarding

6.1 Head teacher / Designated Lead for Child Protection

It is essential that the head teacher ensures all staff are familiar with the Safeguarding & Child Protection Policy and Procedures, and if there are any concerns, they should be recorded and discussed with the school’s Designated Person for Child Protection, Mr S Davies and in his absence Mrs N Davies or Mr S Dales.

The number of staff required to undertake procedures will depend upon individual circumstances and should be discussed with all concerned with the learner’s privacy and dignity at the forefront. Knowledge of the child should be used to help assess the risk; a Risk Assessment should determine if one or two members of staff (or more) are required (see Appendix 11). Where there are concerns around child protection, previous allegations, or moving and handling issues, a minimum of two adults would be required to provide care.

6.2 Staff

If a member of staff has any concerns about physical changes in a learner’s presentation, e.g. marks, bruises, soreness etc.; they will immediately report concerns to the Designated Person for Child Protection.

If a staff member has concerns about a colleague’s intimate care practice he or she must report this to the Designated Person for Child Protection immediately.

If a staff member is accidentally hurt, they should report the incident to their manager immediately, seek medical assistance if needed and ensure an accurate record of what happened is recorded.

6.3 Working with a Learner of the Opposite Sex

Ideally, every child should have the choice for intimate care but the current ratio of female to male staff in many schools, means that assistance will more often be given by a female.

As stated in ‘Supporting learners with healthcare Needs (2017) ‘certain medical procedures may require administration by an adult of the same gender as the learner, and may need to be witnessed by a second adult. The learner’s thoughts and feelings regarding the number and gender of those assisting must be considered when providing intimate care. There is no requirement in law for there to be more than one person assisting. This should be agreed and reflected in the IHP and risk assessment’.

6.4 Learner

If a learner becomes distressed or unhappy about being cared for by a particular member of staff, parents / carers will be contacted at the earliest opportunity in order to reach a resolution and outcomes recorded. Staffing schedules may be altered until the issue(s) are resolved. Further advice will be taken from outside agencies if necessary.

If a learner is accidentally hurt during the intimate care or misunderstands or misinterprets something, staff should reassure the learners safety and report the incident immediately to
the Designated Person for Child Protection. Staff will also report and record any unusual emotional or behavioural response by the learner.

If a learner or parent / carer makes an allegation against a member of staff, the school’s Designated Person for Child Protection must be informed and procedure must be followed in line with the school’s Safeguarding and Child Protection Policy.

A written record of concerns must be made available to parents and kept in the learner’s personal file. Further advice will be taken from outside agencies as necessary.

6.5 Vulnerability to Abuse

Disabled learners are particularly vulnerable to abuse and discrimination because:

- They often have less control over their lives than their peers
- They may have multiple carers through residential, foster or hospital placements
- Changes in appearance, mood or behaviour may be attributed to the child’s disability rather than abuse.
- They may not be able to communicate what is happening to them
- They do not always receive appropriate sex and relationships education, or if they do may not understand it, so are less able to recognise abuse.

It is vitally important that all staff members are familiar with the school’s Safeguarding and Child Protection Policy and Procedures. It is unrealistic to eliminate all risk, but the vulnerability places an important responsibility on staff to work in accordance with agreed procedures.

7. Environment

Every school should be planning to have a fully accessible changing area (detailed in the school’s Accessibility Plan) if one is not already available. If Wepre School admits a disabled pupil with intimate care needs, we will liaise with Health Professionals and the EASG to organise timely adjustments. Wepre School will identify a suitable changing area for learners with healthcare needs, to enable the privacy of learners to be maintained and to provide sufficient staff to safeguard the child.

In addition the school will also consider:

- The availability of hot and cold running water
- Nappy disposal bags
- Supplies of nappies (provided by family – often from the Health Authority)
- Wipes and cleaning cloths
- Labelled bins for the disposal nappies. (Soiled items should be double-bagged.)
- Special arrangements for the disposal of any contaminated or clinical materials including sharps and catheters
- Supplies of suitable cleaning materials - anti-bacterial sprays and hand wash
- Appropriate clean clothing (preferably the child’s own)
- Effective staff alert system for help in an emergency
- Arrangements for menstruation when working with adolescent girls
7.1 **Personal Protective Equipment (PPE)**

Wepre School is responsible for providing Personal Protective Equipment (PPE) which should include: Nitrile disposable gloves, disposable aprons, bin and liners to dispose of waste. Staff should always wear PPE when dealing with any child who is bleeding, wet or when changing a soiled nappy / clothing. Refer to Appendix 8.

7.2 **Waste Disposal**

Wepre School is responsible for the disposal of all nappies / pads used by pupils on their premises. It would not be appropriate for the school to send used nappies / pads home at the end of the school session.

Parents / carers should provide a clean change of clothing, nappies, disposal bags, wipes etc. and parents must be made aware of this responsibility.

Disposal of soiled nappies / pads / clothing should be discussed during admission meetings and noted on the Individual Healthcare Plan / Toileting Plan. Specialist provision / equipment i.e. catheterisation / diabetes / menstrual management / or any other intimate healthcare needs should be disposed of as agreed in the learners IHP.

Up to 7kg of nappies / pullups can be disposed of per school in general waste collection. Contract Waste Disposal should be considered for larger quantities.

8. **Record Keeping**

Where it is identified that intimate care will be required for a learner, an agreement between parents / carers and the school will be completed. This agreement will detail what care is to be provided and by whom. There should be more than one named person – refer to Appendix 4. It is vital that this is prepared prior to admission, and where possible opportunities are made for the pupil and family to meet the staff who will be providing intimate care.

Alongside the agreement, parents / carers and the school will work together to complete a Toileting Plan for the learner - refer to Appendix 5 which should be reviewed on a regular basis.

Whole school and classroom management considerations should be taken into account, for example:

- The importance of working towards independence
- Arrangements for home/school transport, sports days, school visits, swimming etc.
- Substitutes in case of staff absence
- Strategies for dealing with bullying/harassment (if the child has an odour for example)
- Seating arrangements in class (ease of exit)
- A system to leave class with minimum disruption
- Avoiding missing the same lesson for medical routines
- Awareness of discomfort that may disrupt learning
- Implications for PE (changing, discreet clothing etc.)
For each use of intimate care, staff will record using the Personal Care Intervention Log – refer to Appendix 6.

Where there are particular issues which might indicate a need for the intimate care to be delivered by two members of staff; a risk assessment must be completed and retained on the learner’s record e.g. manual handling, safeguarding issues.

9. Complaints Procedure

If the learner or parent is not satisfied with Wepre School’s health care arrangements they are entitled to make a complaint. Please refer to the Complaints Procedure / Policy for further information. The policy can be found in the main office or on the school website.

10. Insurance

School staff are covered by Flintshire County Council Public Liability Insurance to provide Intimate Care.

11. Monitoring

Intimate Care Agreements must be reviewed on a regular basis according to the developing needs of the child. This should take place at least on a termly basis and the Toileting Plan will then be updated as required. The views of all relevant parties should be sought and considered to inform future arrangements.

This policy will be reviewed annually alongside the Healthcare Needs Policy by the head teacher, staff and governors, or if any amendments occur in legislation, or in consideration of changes in working practices.

Declaration:

This policy was approved by the School’s Governing Body on:

Print name: _____________________ Signed _____________________ Chair of Governors

Date: __________________________

Print name: _____________________ Signed _____________________ Head teacher

Date: __________________________
