

I am confident with the place value and ordering of 6-digit numbers.

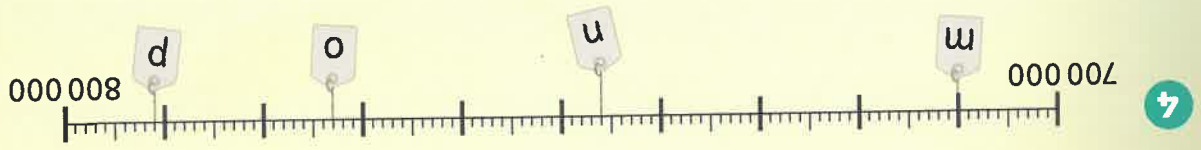

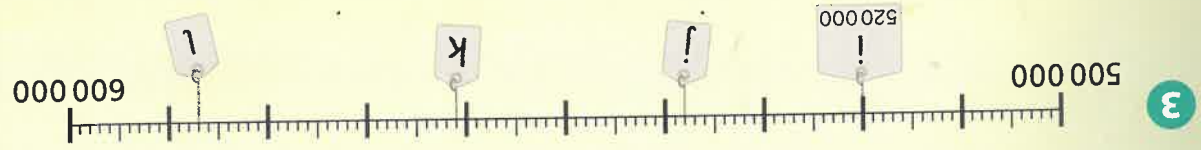

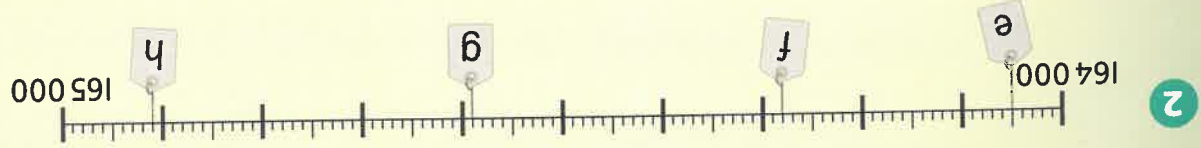

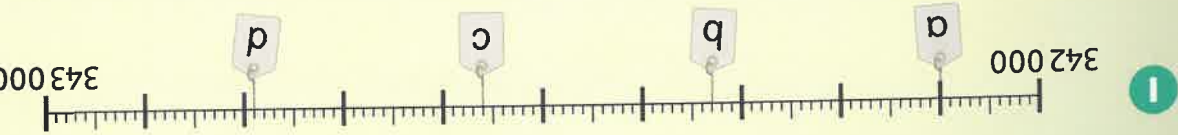

- 5 356 000
- 6 743 500
- 7 350 380
- 8 873 920
- 215 000
- 579 900
- 320 560
- 827 660

Put these pairs in order, smallest first, and write a number that lies between each pair.

Write the number of each tag.

Put these sets of three numbers in order, smallest first. Write a number that lies between the first two numbers and one that lies between the last two numbers.

- 5 357 886      836 412      771 352
- 6 563 585      523 994      565 003
- 7 283 111      278 584      219 268
- 8 828 921      827 663      828 699

I am confident with the place value and ordering of 6-digit numbers.
