

Dal ati i Ddysgu Cludiant rhwng y Cartref a'r Ysgol

Os yw disgybl ysgol yn cael canlyniad positif ar gyfer COVID-19, dim ond y rhai sydd wedi bod o fewn 2 fetr o'r achos positif fydd angen hunanynysu.

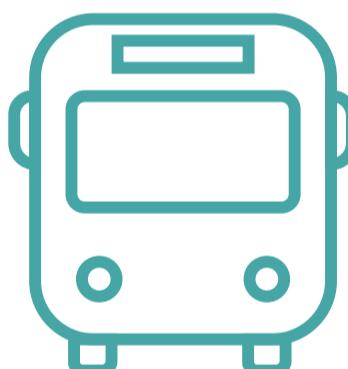

Bydd dilyn y camau hyn yn lleihau nifer y disgyblion a fydd angen hunanynysu o ganlyniad i un disgybl yn cael prawf positif.

Lle bo'n bosibl, dylid trefnu trafnidiaeth i leihau cymysgu drwy:

Ddefnyddio yr un math o gerbyd bob dydd

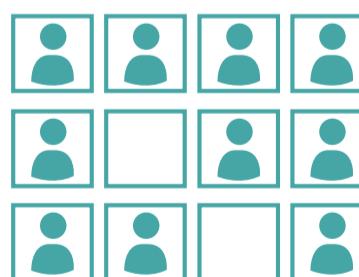

Cludo yr un grŵp o ddysgwyr bob dydd

Cludo i un ysgol neu leoliad ac yn ôl yn unig

Gwybod pwy sy'n eistedd ble:

Cadwch yr un seddi bob dydd

Grwpiau dysgwyr yn ôl lleoliad (os ydych yn cludo i fwy nag un ysgol neu leoliad), grŵp cyswllt neu grŵp dosbarth

Ystyriwch dynnu llun i gadw cofnod o'r amser a'r dyddiad

Awgrymiadau yw'r rhain o brosesau da i'w dilyn lle y bo'n bosibl i gefnogi Profi, Olrhain, Diogelu a gallent gyfyngu ar nifer y plant sy'n gorfol hunanynysu pe bai canlyniad positif

Keep Wales Learning Home to School Transport

If a school pupil tests positive for COVID-19, only those who have been within 2 metres of the positive case will need to self-isolate.

Following these actions will reduce the number of pupils who will need to self-isolate as a result of one pupil testing positive.

Where possible, organise transport to reduce mixing by:

Using the same type of vehicle each day

Transporting the same group of learners each day

Transporting to and from only one school or setting

Know who sits where:

Keep the same seats every day

Group learners by institution (if transporting more than one school or setting), contact group or form group

Consider time and date stamped photo to record

These are suggestions of good processes to follow where possible to support Test, Trace and Protect and could limit the number of children having to self-isolate in the event of a positive case
