

Washing Line Conclusions

Does the Temperature Affect How Fast Towels Dry?

What did you observe or measure?

Towel 1: Describe how much it had dried and how you could tell.

Towel 2: Describe how much it had dried and how you could tell.

Towel 3: Describe how much it had dried and how you could tell.

**What is your conclusion?
Can you answer the question?**

Can you use your observations and measurements to answer the question? Did your towels dry differently in the different temperatures?

Can you explain why this happened?

Think about what causes water to evaporate, and try to explain why your towels dried in the different temperatures. You can use pictures or diagrams.

Washing Line Conclusions

Empty rounded rectangular box for a title or introduction, with a pair of glasses icon on the right side.
