

22 November 2019

Headteacher: Mr Paul Henery

The children from Year 5 and 6 spent three days in the beautiful Victorian building of Holt Hall, near the North Norfolk coast last week. During their trip they were busy exploring the coast line itself, focussing on fossils and rock pools, as well as orienteering, using survival skills (den building and gutting and eating fish over a camp fire) and exploring art through nature.

Here are some of the thoughts of those who went on the trip:

"My best experience at Holt Hall was going to the beach because I found lots of wildlife and 2 crabs"

"My best experience at Holt Hall was we did den survival skills and gutted and cooked fish. I also liked it when my roommates looked after me when I got upset. It was all brilliant though!"

"The funniest moment at Holt Hall was when four people had to carry Lily's suitcase down the stairs (because it was so big and heavy)"

"My best experience of Holt Hall was when I got over my fear of sleeping over"

"The most memorable thing about Holt Hall was when we were all together and had fun. And that was the best trip EVER"

ATTENDANCE

Our target school attendance figure is 97%

Our current figure is...

96.6%

FOSA FAMILY BINGO

Please come along with friends and family to our fun family Bingo at the Recreation Centre **tomorrow**. Children welcome. Doors open at 6.30pm, first game starts at 7pm. Please remember all profits are spent on YOUR children. **FOSA**

PARENT CODE OF CONDUCT

We expect all parents to behave in a respectful and considerate way whilst on the school premises, for everybody's sake. We have attached our parents' code of conduct which was agreed with governors last year, along with a copy of our more detailed policy. We encourage all parents to talk to us about any issues and concerns they may have so that, together, we can hopefully reach decisions which are in the best interest of the children.

Reception fire engine visit

The Reception children were lucky to have the fire engine and crew visit us this morning. They learnt about some of the equipment the firefighters use and were allowed (with help!) to test out the hoses and see the thermal imaging cameras. They had lots of fun and also got to see the engine leave with lights and sirens as the firefighters had two call outs!

Dates for your diary

November

Thu 28 Show and Tell Year
5 & 6 @ 3pm
Sportshall Athletics

December
