

24 April 2020

Headteacher: Mr Paul Henery

Home Learning

We hope that you and your children have found the home learning activities accessible this week and have been able to make contact with your child's class teacher via the class e mail as you have needed to. We are all trying to do the best we can, in the circumstances, to maintain learning for all our children whilst being very aware that this is a completely new situation for everyone and that each family will have their preferred ways of managing the many different demands the current restrictions present.

We have added a new tab under Home Learning, on the website, which will give general guidance for parents about the way in which we are doing things, as well as helpful websites for making sure children stay safe on line and for well-being and mental health. This part of the website will be developed further over the course of next week.

The teachers will be putting up next week's home learning any time from the end of the day today until 9.30am Monday morning. They will keep the previous week's home learning on their class page, in case you or your child need to refer back to anything. The current week's learning will always be at the top of the web page (dated), and we will not have more than two week's content on at any one time.

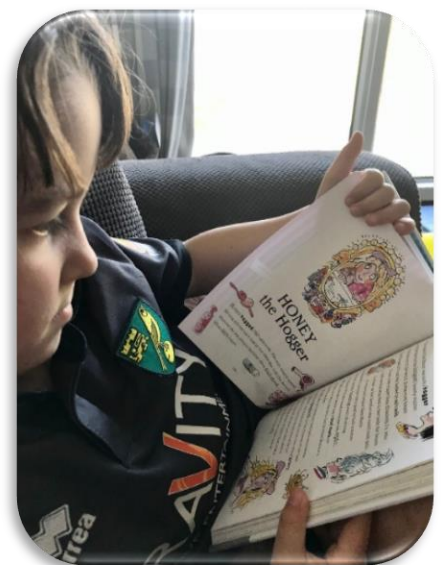

Mrs Maunder has added many helpful links on the SEN home learning page. Do go and visit that page if you need some additional support to help your child, and please do not hesitate to contact us if you need any further questions answered.
