

PSHE Topic Task 1

Goldilocks had to make the decision whether to go into the Bear's house or not. Imagine you are Goldilocks (or ask your adult to take on the role!) What would be the positive things about the choice she made? What would be the negative points?

Make a list in the table and then decide whether Goldilocks made the right decision!

One point for each column has been done for you.

Positive points	Negative points
<p>The house was warm</p>	<p>It was a stranger's house</p>

Do you think Goldilocks made the right decision when she went into the Bear's house?

Why/Why not?

Now design a poster on the next page that will help people to make the right choice if they are lost.
