Home-learning for Easter

I hope the children will have a fabulous holiday and will have time to enjoy and relax in hopefully) sunshine. Whilst on holiday, a continued practise of their times tables and related number facts will support their return to school in April.

They may also want to research into The Amazon Rainforest, which is our topic after the holiday. We will be looking into how to survive in this environment so any appropriate Bear Grylls skills will support their understanding!

Building Learning Power Animals

Below are the pictures and names of our newly crowned Building Learning Power Animals - please ask your children about their characteristics and refer to them as much as possible during the holiday!

Reflective Hooty

Resilient Roko

Reciprocal Ants

Resourceful Beaver
