

Trengrouse Half-Term Home-learning... Thank you to you all for your support over the last term of learning in Trengrouse. We hope you all have a wonderful half term break. Below are **some ideas** for home-learning that can support your child over the holiday...

### English

- Keep a daily diary entry of things that you do over the holiday;
- Read at least once a day, for at least 10 minutes and record this in you reading record—lets get to the 30/50 badges ;
- Spelling patterns - look for a rule (i.e.) **igh** (night...) or **oa** (boat...) or **a-e** (cake, save...) and find words and definitions within it; then put the words into accurate sentences. Know your homophones too!

### Maths

- Practise times table and related division facts every day online or using times table splat;
- Have a go at paying for things and calculating totals/change in shops with your parents/carers;
- Use written and mental strategies for adding, subtracting, multiplication and division (i.e.) column, number line, partitioning, chunking, grid..
- Mathematics will be a great way of keeping your maths brains ticking during the break!

Our next topic, after the break, is called Dragons - Fact or Fiction and is all about the myths and legends surrounding them. It would be great to have your dragon models in after half term, to help bring this to life - here are two examples already in...
