Trengrouse Newsletter, Wednesday 3rd May 2017

Hi there. Here is the home-learning for the following week. I will keep spares in class and if you are unsure of anything please let me know. Home-learning club will also be available to children on Monday lunchtimes (other days are also possible – the children just need to as in advance!).

English/Topic

In the next week, we will be discussing and creating our own special logos to help protect and promote the Amazon Rainforest...

Choose a rainforest animal and find out 3-5 facts that make it stand out as a creature that should represent the rainforest. Sketch the animal with the facts beneath it.

Here are some famous logos...

Maths

I can find the area and perimeter of rectilinear shapes...

1. A rectangle measures 7 squares long by 6 squares wide. What is its area? What is it's perimeter?

2. A garden has a patio area 5 squares by 8 squares. What is its area? What is it's perimeter?

3.

Calculate the area of the 3 rectilinear shapes.

Now calculate their perimeter.

Spellings – suffixes -tion, -sion and -ssion.

The children are required to know how to convert a noun to a verb using one of the above suffixes. They need to show that they know how to do this and be ready to be able to spell both the noun (a person, place or thing) and verb (an action):

Choose 5 from either list and create interesting sentences with them!

noun	–	verb
admission	–	to admit
discussion	–	to discuss
collision	–	to collide
division	–	to divide
persuasion	–	to persuade
interpretation	–	to interpret
possession	–	to possess
dedication	–	to dedicate
donation	–	to donate

Next week's debate topic is should children be paid for getting good grades in school?
