

Reporting a positive covid case (of a child) at the weekend or during a holiday

Please email the address below. **Only send an email if your child (who attends this school) has received a positive test result.**

office@presteigne.powys.sch.uk

If your child has received a positive test result, please follow all the guidance given by Test, Trace, Protect (TTP).

If your family is self-isolating following advice from Public Health Wales, TTP or if you have symptoms, please inform the school each morning through the normal channels. Children must not come into school.

If there is a positive case (staff or pupil) reported to us, the school will notify parents as soon as possible if a class 'bubble' needs to self-isolate. TTP will make contact with parents and provide further advice.
