

Investigating Forces

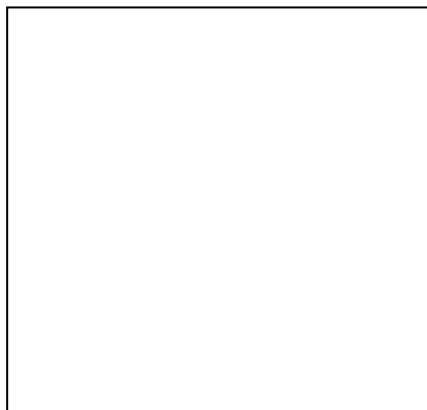

What do you know about forces? Start filling in the spider diagram.

Forces

Put your pencil on the table. Does it move? _____

Can you make it move? _____

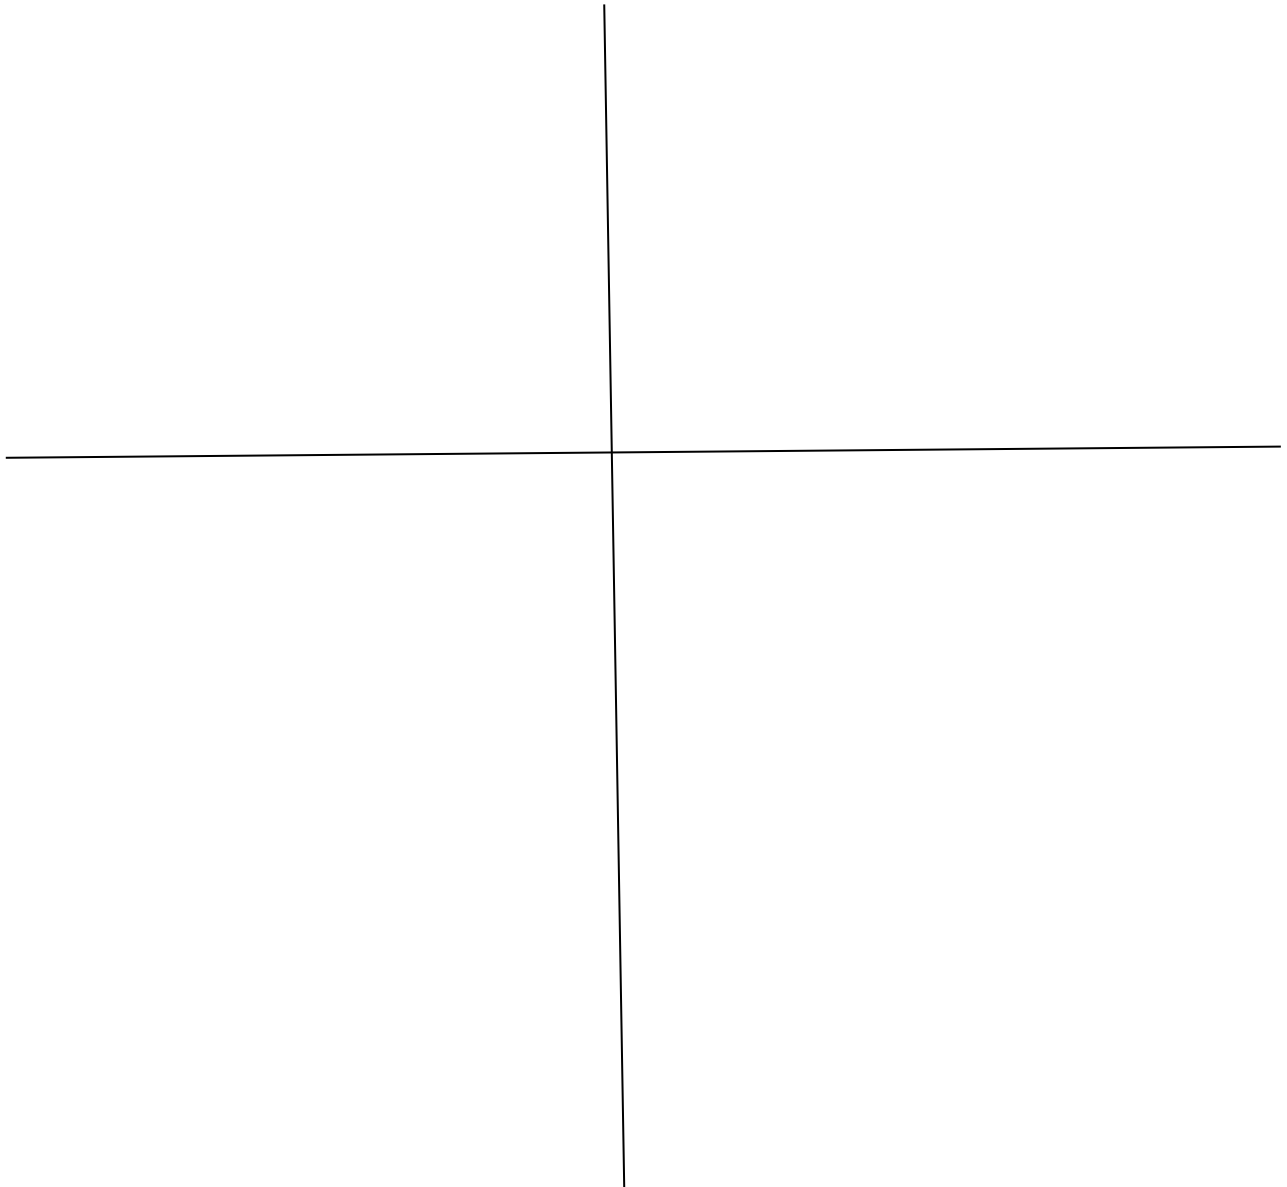

What did you do to make it move? Draw a picture to show what happened. You should be able to move it in 3 different ways. You may need to label your diagram to help you explain.

Pushing and pulling are forces that make things move.

Find and investigate 4 things in your house that use pushing and/or pulling forces.

Record what it is and how it uses the force.

Click on the link below to help you reinforce your understanding of Forces.
