

## CILFFRIW PRIMARY SCHOOL YSGOL GYNRADD CILFFRIW

### Home-School Live Catch-up

#### Video-conferencing

This is when the teacher can hold a meeting or lesson with a group of children. This type of conferencing gives children and teachers the opportunity for face-to-face contact in real time, and also allows children to be able to keep in contact with their friends. It can have a positive impact on pupils' well-being.

However, it does not replace the experience of being in a real classroom as there will still be limitations on pupil/teacher interactions. There are obvious safeguarding rules that must be agreed upon before your child can take part in any live learning.

#### Regulations for Video-conferencing – Teachers

When teachers are using video-conferencing for a live catch-up session with pupils, they will:

1. notify the school or setting's senior management team, learners and parents/carers of any scheduled sessions, cancelled sessions or changes in arrangements
2. ensure that they keep themselves up-to-date with all relevant policies and procedures, including online safety, safeguarding and data protection policies
3. only use devices that have been issued by the school
4. choose a neutral location that is appropriate and safe, e.g. a living room, a study or a kitchen
5. encourage learners to work from a suitable communal home location where they feel comfortable, accompanied by their parent/carer
6. ensure that the background is professional and appropriate
